### "Prepare Your Child for School" Class at Torrance

A new free adult class to help mothers and fathers better understand their children will be held each Monday from 12 to 3 at the Seaside school (off Highway 101 in Torrance) starting Monday, April 24.

The course is open to parents of children ages two to five. The class is designed to prepare your youngster for kindergarten and school, to help you better understand your child and to help you cooperate with the child's future school.

During the first hour of the class the children will join in free play under the supervision of a competent child-care person while the parents engage in a discussion on such topics as: How to instill correct discipline habits in your child, how to help your child get along with other children, how to develop courteous and healthful habits of your child.

During the next two hours the child will be taken into a kindergarten room and will work on creative experiences with clay, paints, and music. Each mother will closely observe her own child and study his habits, and will record on a sheet given her, the good habits that she wants to encourage and the bad habits that she wants to change. The teacher will help each mother work out her problems during this session and will consider them in detail during the first hour of the next meeting of the class.

In addition to your participating in the open discussion group, you will be given assistance and counsel by the adult education teacher, Mrs. Warnell—and from time to time—by the Principal of the Seaside School, the Director of Instruction and the Psychologist of the Torrance Unified School District.

To register, go directly to class, with your child on Monday, 12 noon, April 24—room 8, at the Seaside School. Telephone Torrance 645 for further information.

### Glass Study Planned For Field Trip

A visit to a studio of early American glass, pewter, fine porcelain and Wedgwood has been arranged by the Torrance Adult School for Thursday night of this week, April 27. The group will meet at 6:15 in Room 204 of the high school, and from there will go to the shop of Helen Whitney Roberts in Long Beach.

Purpose of the trip is to learn to identify early American glass and study its inner meaning, cultural aspects and its symbolism. Special emphasis will be placed on how glass collection may be incorporated into the general scheme of your own home. Tiffany and imported China will be displayed in addition to Cranberry, Ruby, and Waterbury glass.

This field trip is free to all adults regardless of residence. Those wishing to attend are requested to bring their own cars, but transportation will be shared for those who do not have them. Go directly to Room 204 of the high school on Thursday night, April 27, at 6:15.
